Summary

Full-stack Developer with 4+ years of proven experience designing, testing and implementing **50+ projects** using modern technologies such as **TypeScript, React, Next.js, MongoDB, AWS** and **RESTful APIs** to build scalable systems. Contributed **60+ merged pull requests to major open-source repositories**—including **Node.js, Webpack, MDN, Lottie**, and **The Odin Project**—demonstrating strong attention to detail and proficiency in code quality, debugging, documentation and collaborative development within large-scale engineering teams.

Skills

Programming Languages: TypeScript · JavaScript (ES6+) · Python · C · HTML5 · CSS3
Frontend: React · Next.js · Tailwind CSS · SASS · Redux · Figma · Framer Motion · Webpack · Vite · Canva · SSR/SSG
Backend & Databases: Node.js · Express.js · PostgreSQL · MongoDB · REST APIs · GraphQL · Prisma · Redis · SQL Optimization ·
Authentication & Security: OAuth 2.0 · JWT (JSON Web Tokens) · Secure API design · HTTPS / TLS
Cloud & DevOps: AWS (EC2, Lambda, S3, RDS, IAM, CloudFront) · GCP · Azure · CI/CD (GitHub Actions) · Terraform · Linux
Testing & Quality: Jest · Unit Testing · Integration Testing · Git (Version Control)
Other: Performance Optimization · Bash/Shell · 80 WPM Typing · Prompt Engineering · AI Technologies

Professional Experience

Full-Stack Developer—DigiairX · Remote

Sep 2024 – Present

- Spearheaded a team of two engineers to build and deploy scalable full stack web applications using TypeScript, Next.js, Node.js, MongoDB, RESTful APIs, AWS delivering high-performance user-centric solutions.
- Improved page load by 30% through Next.js SSR/SSG, Redis caching, and optimized image (lazy-loading).
- Increased SEO lighthouse score from 70 → 95 by optimizing script loading, prefetching and dynamic rendering.

Software Developer — FastmarketX · Notable personal project

Aug 2025 – Oct 2025

- Architected FastmarketX, an e-commerce featuring shop creation, product management, secure transactions, and a scalable distributed API architecture—improving API response performance by up to 30%.
- Reduced deployment time by 60% through automation and process optimization.

Education

Full-stack Developer—TheOdinProject · Online

Aug 2023 – Sep 2024

- Completed all core and advanced projects, emphasizing responsive design and performance optimization.
- Contributed **30+ pull requests** to the open-source curriculum by improving functionality, fixing bugs, writing documentation, and integrating best practices in Git workflow.

Software Engineering—ALX Academy · Online

Mar 2020 – Jan 2021

- Completed 80% of intensive full-stack curriculum; paused to focus on degree and professional projects.

BSc. Statistics—Kwame Nkrumah University of Science and Technology · Kumasi

Sep 2019 – Sep 2023

- Graduated with **First Class Honors (top 5%)**.
- Chosen as **Departmental Quiz Representative**, leading my team to a **2nd-place** victory.
- Authored and published a book on **Communication Skills**.

Languages

English (Professional) · French (Conversational) · Ga (Native) · Twi (Native)
